

Die Pfalz.

Tagesausflug Nr. 5

Deutsche Weinstraße Bockenheim-Bad Dürkheim

Highway No.1 is not the only place where a stunning natural backdrop can be enjoyed from your car. The German Wine Route, too, offers idyllic vistas and picturesque villages to those who prefer the top down. We have picked out the most beautiful route for you and recommend the following: take it down a notch during the day and up a notch in the evening – the ideal formula for total relaxation. 85 kilometres of landscape pleasures await you between Bockenheim in the north and Schweigen to the south including countless cozy wine taverns, highly recommended wineries, and generally good weather to boot since the sun shines more in the Palatinate than in most other parts of Germany..

Neuleiningen

The castle village with its narrow alleys and the half timbered houses that nestle close to the castle mountain, put a magic spell on his visitors. The castle Neuleiningen was built at the 13. century and 200 years later it's called as the strongest castle in palatinate.

Freinsheim

Recommandable is a side trip to the pictureque village Freinsheim. The palatinate Village Rothenburg is the right place with its baroque houses and the medieval townhall to take a rest and walk along.

The winevillages Kallstadt, Leistadt and Ungstein invite you to go shopping. Historical winegrower courtyards and half timbered houses with the jewelry decoration and the break stone walls reminding that the most buildings were over 300 years old. Powerful door curve leads you in inner courtyards. They invite you with its gorgeous flower splendour to stay a while.

Roman complex "Weilberg"

Here, in this Villa Rustica, you can follow the footsteps of the ancient romans. 2.000 years ago the romans already produced wine here. Imagine a front facade of 150 metres, explore ancient tombs, marvel at the remains of the ancient roman bath and see a restored roman wine press.
